

Coaching Skills for Executives

Foundations Coach Training and Accreditation Program

Target Audience:

This program is designed specifically for:

- Business Owners, Managers and Leaders keen to add or develop coaching skills to their capabilities
- HR practitioners
- Internal organisational coaches
- Professionals seeking to build a foundation and skillset in coaching
- Individuals starting out on a professional career in coaching

This program is accredited under the European Mentoring and Coaching Council's (EMCC) European Quality Award Certification

Start your journey towards coaching mastery – at a global level of excellence.

Begin with:

Our 1- Day intensive workshop - ideal for anyone wishing to:

- Gain a foothold in coaching process and practice
- Develop “manager as coach” or “leader as coach” skills
- Take their coaching skills to the next level
- Explore and refine the application of coaching skills in a variety of situations
- Gain greater insight into their natural communication style.

On Completion:

Participants start coaching immediately. You will complete the workshop with both theoretical and practical experience in a proven coaching process. Immediately take your new “toolkit” and process directly into your practice or work environment to begin working with clients or staff.

Course content:

As a course participant you will gain:

- An understanding of self, your own capabilities to coach, and of the areas to focus on to further develop your skills
- A working knowledge of a proven coaching framework for coaching conversations
- An understanding of the need to ensure an outcome and action orientation
- Confidence in your ability to coach “in the moment” and bring out the best in those you work with
- An understanding of the importance of establishing and managing the coaching relationship and associated professional standards that underpin coach/client relationships.

Consolidate your learning...

Once the classroom training is complete participants can elect to continue our program to gain EMCC European Individual Accreditation as a Foundation Level coach.

The pathway to individual accreditation takes the form of a prescribed number of practical coaching hours, progressing from observing to assisting to solo client sessions.

Throughout this process you are guided and regularly debriefed by an assigned Supervisor. All our supervisors are highly experienced coaches from within our trusted network and hold either EMCC Senior Practitioner or Master Practitioner Accreditation.

You will participate in our on-line peer learning and mentoring “Coach Connect” network and complete a series of self-reflection exercises.

The accreditation program typically takes between 3-4 months to complete.

To register your interest in taking your learning through to becoming EMCC Accredited as a Coach, go to [Register Here](#) or contact us at info@beckonbusiness.com
